LOGISTICS · PARCEL DELIVERY SITE

Closing the blind spots: zero breach losses for DPD

Flexiguard™ perimeter detection, integrated with DPD's existing Hikvision CCTV, detects every cut or climb attempt that parked vans hid from the cameras.

LOSSES FROM BREACHES SINCE INSTALL	CUT AND CLIMB DETECTION	EXISTING VMS INTEGRATED	CAMERA TURNS TO THE ALARM

01 · THE CHALLENGE

Good cameras, hidden gaps

DPD's Hikvision CCTV covered most of the perimeter, but parked delivery vans created blind spots. Opportunistic intruders used them to breach the fence unseen, leading to unauthorised access and theft.

02 · THE SOLUTION

Detection on the fence itself

APS installed the Flexiguard™ perimeter detection system to monitor the fence line continuously. It detects cut and climb attempts wherever they happen, whatever is blocking the cameras' view.

Automatic Environmental Compensation adjusts for wind, rain and barbed-wire movement, keeping false alarms low so only genuine threats raise an alert.

ON SITE · FLEXIGUARD™ ON THE MESH FENCE

THE RESULT

Zero losses from perimeter breaches

Since installation, DPD has had no losses through the fence.

INTEGRATION AND IMPLEMENTATION

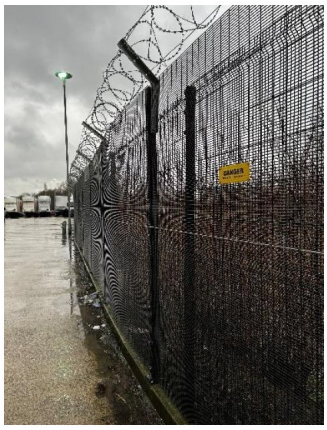

Two systems, one picture

Hikvision provides the visual coverage; Flexiguard™ detects the physical breach. Linked together, every fence alarm brings a camera straight to the intrusion point.

01 →	02 →	03
Detect	**Signal**	**Verify**
Flexiguard™ senses a cut or climb attempt and raises an alarm for that zone.	Dry relay contacts pass the alarm into the Hikvision VMS via the PTZ towers.	The zone's PTZ camera pivots to the intrusion point for real-time visual verification.

PROCESSOR ENCLOSURE

PROTECTED FENCE LINE

Built on what was already there

With the Hikvision central system already running, APS integrated through dry relay contacts, a cost-effective and seamless connection.

The existing PTZ camera towers also power the Flexiguard™ PSUs, so no new cabling or infrastructure was needed.

ACCREDITATIONS AND MEMBERSHIPS

Secured by Design · Police Preferred Specification · bsia british security industry association · National Protective Security Authority · PSSA Perimeter Security Suppliers Association · nqa ISO 9001 Registered · UKAS

Close the gaps in your perimeter

Already have CCTV? Talk to APS about adding Flexiguard™ detection and linking it to the cameras you have.
